# WHY RANDGER?

Why did we come up with **Randger**?

We wanted to offer all travel fans a range of van conversions with as many amenities as possible, while keeping prices affordable.

Created 3 years ago by a team of enthusiasts, **Randger** embodies a new kind of van living: free, and yes, without constraints, but with a certain level of comfort...

**Randger** is for all those who want to be on the move for a long while and those that just want to go on a weekend trip, be they hikers and sportspeople looking for the best spots, globetrotting families or passionate travellers hitting the road to discover new places.

Our vans are all made in France, designed and constructed on our production site nestled in the heart of the Dordogne. Randger is part of the **Trigano** Group, the leading European manufacturer of motorhomes and camper vans.

**RANDGER**

*Conquering spirit!*

AT RANDGER,  
OUR LAYOUTS  
ARE ALL DIFFERENT.

What's your travel style?

How many people do you want to take with you?

How many people will sleep in the van?

What is your main comfort requirement?

What's your travel style?

How many people do you want to take with you?

How many people will sleep in the van?

What is your main comfort requirement?

These are the questions we asked ourselves when we were coming up with a range of models that are cleverly organised, with a good balance between the day and night parts.

And then we tested our vans, to check that the kitchen was functional, that the beds were set up easily, that the bathroom was not too narrow...

None of our models look alike: each one has its own personality... it's up to you to figure out which one will get along best with you.

# AT RANDGER, QUALITY IS NON- NEGOTIABLE

Quality... is a reality at Randger.

Quality is something we keep close to heart, so your van can accompany you as far and as long as possible!

- FURNITURE

The furniture in a van conversion is subjected to a harsh conditions, both from daily use and the vibrations of the road.

Randger gives a lot of attention to the design and production of its furniture.

The **design** is ergonomic, so that each piece of furniture is useful, that it is placed in the van without getting in the way of foot traffic and that it is convenient and easy to use on a daily basis.

The **manufacturing** is high-quality and uses only attractive and robust materials.

The **finishing details** contribute to the durability of the furniture, with the use of aluminium mouldings, thick cupboard side panels and numerous attachment points that ensure the stability of the furniture over time.

Finally, the last detail that is of utmost importance: all the **joints** (even the ones you can't see!) between the furniture and the walls are finished with an anti-friction joint ball.

**Benefits:** much easier maintenance because dust doesn't settle in hard-to-reach spots and the interior is quieter while you drive.

**RANDGER**

*Conquering spirit!*

- **INSULATION**

Good insulation is tantamount to living comfortably in a van, whether it is very hot or very cold outside!

**Randger** relies on proven know-how, applies advanced insulation techniques, and has selected insulation materials that are recognised for their performance.

**Insulation of openings**

In a van, heat and cold mainly find their way in through the openings. With Randger, each van's contours, door and window interiors, and crossmembers are meticulously insulated. All our vans are also systematically equipped with **insulated curtains** on the back doors.

**Sandwich panels**

Flooring panels are a key part of your van's layout. At Randger, we use **multi-layer sandwich** panelling, which offers excellent floor insulation quality. The floor is cut as a single piece to ensure robustness and stability.

**Walls**

The walls of Randger vans are made of **compressed thermoformed materials** (except R550 and R555: polyester). First of all, this guarantees sturdiness as well as being an excellent barrier against cold and heat. They are combined with padding, providing for an appealing finish that creates a cosy interior.

# AT RANDGER, THE AMENITIES ARE TOP NOTCH!

When you want to hit the road often and go far, having a well-equipped van is essential. At Randger, our vans are chock-full of as many practical amenities as possible that are useful on a daily basis.

- HEATING / WATER HEATER

At Randger, we opted for the Truma D4 combined diesel heater - water heater. This heating and hot water system works with your vehicle's fuel, giving you more independence. It's also very convenient for when you go abroad and the gas fittings are sometimes different....

- KITCHEN

All our vans have kitchens fitted with 2 piezo ignition gas burners and a stainless steel sink. All you need to travel with peace of mind!

- REFRIGERATOR

At Randger, we selected compression refrigerators. This means technology that allows you to get cool quickly and maintain the temperature even if it is very hot outside.

- LIGHTING

You need good lighting to feel good. At Randger, all our vans have many direct and indirect light sources. All of these are LED lights, which provide pleasant and energy-efficient light.

//Truma D4 diesel heater - water heater

//Lighting

**RANGER**

// Kitchen

//Compression refrigerator

# TOP NOTCH AMENITIES!

- **SEITZ SR7 DOUBLE GLAZED FLUSH-FITTING WINDOWS**

These windows not only look good, they are also insulating and very practical with their blind-mosquito net combination.

- **SHOWER DUCKBOARD**

Showering is great! But puddles in the bathroom aren't! That's why we put a duckboard in all our vans... (except R499)

- **MIDI HEKI ROOF LIGHT 70 X 50**

It lets in plenty of light into your van during the day and its LED backlighting creates a pleasant ambiance at night.

Standard on all our models except R499-R535

- **WIDE ELECTRIC STEPS**

Super practical when you go in and out of your van 40 times a day!

Standard on all our models except R499-R535

//Seitz SR7 flush-fitting windows

//Shower duckboard

//Wide steps

**RANGER**

*Conquering spirit!*

//Midi Heki roof light and integrated cab

//Mosquito net

//RemiFront blinds

- **SIDE DOOR MOSQUITO NET**

Don't like insects buzzing all around you at night?  
Neither do we!

Standard on all our models except R499-R535

- **REMIFRONT CAB BLINDS**

Day? Night! With RemiFront blinds, it's fast and easy!

Standard on all our models except R499-R535

- **INTEGRATED CAB**

Get more space and headspace with the integrated cab, which frees up the front part of your van.

Standard on all our models except R499-R535

# AT RANDGER, WE LIKE HAVING STORAGE SPACE ALL OVER THE PLACE

Yes, you want to travel, but not without your essentials!

For one young couple, it might be their bikes or surfboards.

For one family, it might be storage space for their favourite T-shirts and the children's soft toys...

And for a couple of foodies, a rather large space for pans and spices

In any case, at **Randger**, we design our vans to take advantage of every last cm<sup>2</sup> to fit storage compartments.

//Pot and pan storage

//Wide cargo compartment

//Wardrobe

//Cupboards around the bed

*Conquering spirit!*

//Shower

//Toilet

//Sink

## TB CONCEPT, BATHROOM INNOVATION

It's not easy to fit a functional bathroom into a van conversion!

A bathroom that is **practical** for both showering and freshening up...

Our designers have found the solution with **TB Concept!**

TB Concept is a **3-in-1 bathroom** that can be easily configured for different uses thanks to its **modular partition** and **retractable elements**.

- **SHOWER CONFIGURATION**

No more sticky shower curtain! The partition unfolds to isolate the shower part from the toilet, so you can shower without splashing the rest of the bathroom

- **TOILET CONFIGURATION**

The toilet pivots to be positioned in the centre of the bathroom, or it can be retracted to take up as little space as possible

- **SINK CONFIGURATION**

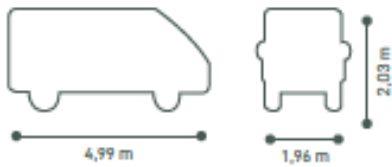

The washbasin folds from the partition when needed

Standard on all our models except R499, R535, R550 and R555.

# R640

An amazing van conversion!  
The R640 brings the best of Randger together in a single van: modularity, comfort and practicality. Sleeping in a double bed or twin beds, it's possible! Take a real shower, it's possible too! A large refrigerator, still possible! And all at a very affordable price!

Day **4 passengers**

Night **3 passengers**

2.3 Multijet 140 HP  
2.3 Multijet 160 HP  
2.3 Multijet 180 HP

Automatic gearbox  
option

Kerb weight 140 HP: 2,996 kg  
160/180 HP: 3,019 kg  
Gross vehicle weight 3,500 kg

Compression refrigerator  
138 l

Clean water / Wastewater  
100 l      100 l

Gas locker  
2 x 6 kg

Combined heating-water heater  
Truma D4 diesel

Rear bed 1,925 x 800 / 1,870 x 860  
Front bed 1,810 x 1,090

# R640

## NEW 2021

- Standard integrated cab
- New refrigerator
- Wider corridor

## Cabin Comfort

- Electric windows and rear-view mirrors
- Remote central locking
- Radio-ready
- ESC (ESP)
- Traction +
- Driver and passenger airbags
- Cabin air conditioning
- Cruise control and speed limiter
- Front seat Captain Chairs

//The dashboard: to drive your van and barely lift a finger!

# WE LOVE

- Its rear twin beds on jacks that can be converted into a large bed
- Its large TB Concept bathroom
- Its large, 138-litre refrigerator
- Its integrated cab and high-end standard equipment

**RANGER**

*Conquering spirit!*

//Cooking? A piece of cake, with the stainless steel sink and the 2 piezo ignition burners
