# COLLECTION 2018

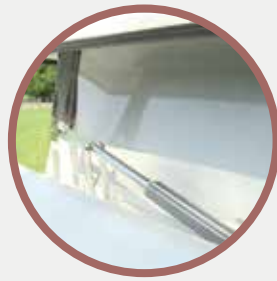

Whether or not you're an experienced caravan owner, we know you love improvised weekends and following the pathway to discovery with no loss in comfort: the Silver is made for you!

With an incomparable set of features, it will meet your every need while combining freedom with comfortable living.

Hit the road to adventure with effortless towing and exceptional ease of storage. And don't forget its extraordinary design, outstanding comfort and expanded storage areas – they'll let you take full advantage of your travels.

We've listened carefully to you, our customers, to your comments and suggestions, and have designed our caravans with your needs and requests in mind.

The EASY TOP system that lets you raise the caravan roof automatically, without effort, in less than a minute is now proposed as an option on all SILVER 2018 models.

## SETUP

Increase your caravan's volume in the blink of an eye thanks to the roof extension, manually or automatically with the new exclusive EASY TOP system.

## HANDLING

With a third less wind resistance than a standard caravan, the SILVER is easily hauled and substantially reduces your fuel consumption.

## TOLL BOOTHS

Being under 2 meters in height, this caravan goes through toll booths without additional charge.

## HITCHING

Its compact dimensions and weight make hitch linkage easy.

## GARAGE CLEARANCE

With a minimum 1.8 or 2.0m width and 1.98m height, your SILVER goes easily in and out of your garage.

## EASY TOP MOTOR ASSISTED POP-UP ROOF

(Option for Trend models)

## GAS HEATING

- Exclusivity
- Integrated silent hot air-ventilation
  - Reduced gas-consumption
    - Easy to operate (optional Silver Trend)

## XPS-FOAM INSULATION

Insulation core made out of XPS Foam : excellent insulation features, durability and rot-proofness, humidity-resistance.

Amongst the main risks for damage to you caravan are hail-damages and water-ingress.

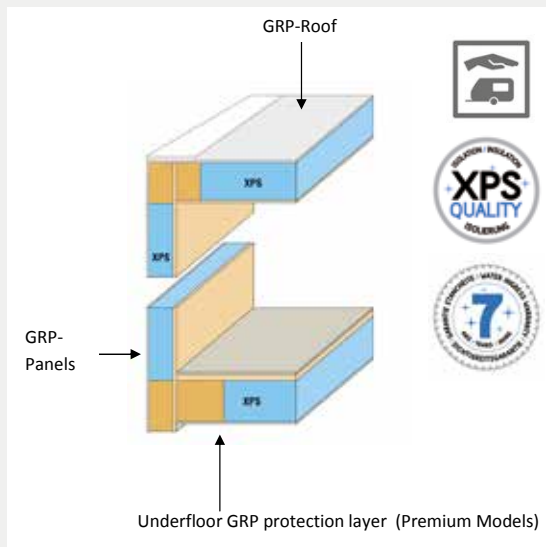

The conventional construction of pop-up-caravans using traditional sandwich panels, does not provide adequate guarantees in this respect.

That's why Silver has decided to develop an exclusive construction-technology, which does offer you longevity of your caravan and allows them to benefit from a 7 year water ingress warranty\*

### CONVENTIONAL TECHNOLOGY:

- Roof and panels in aluminium
- Floorpan covered by multiplex
- Expanded polystyrene-insulation (EPS)

### EXCLUSIVE SILVER TECHNOLOGY:

- Improved hail protection and weatherproofing thanks to GRP roof and side-panels
- GRP cladding under the floorpan against splash-water, salt and stone chips (Premium modellen)
- Hydrophobic and rot-proof extruded polystyrene-insulation (XPS) for an optimal waterproofness

\*Silver offers a 5 years water-ingress guarantee on Trend-models and 7 years on Premium-models under condition of an annual service at one of our certified dealers)

### INSULATION:

Unlike most other manufacturers, Silver does not simply comply with traditional expanded polystyrene for insulation goals. The side-panels, the roof and floor of all Silver Trend and Premium models benefit from water-resistant and high pressure-resistant XPS foam and offer you exceptional insulation values.

### THE ADVANTAGES:

- Reduced risk of water-ingress-damage thanks to the use of hydrophobic materials
- Energy-savings through high-performing insulation technology
- No heat-loss; a comfortably warm indoor climate in winter, a comfortably cool caravan in summer

### GRP-POLYESTER:

Silver has chosen reinforced GRP-polyester to offer the highest possible protection of the outside of your caravan. This polyester is a combination of glasfibers and plastic, that distinguishes itself through its unrivalled resistance against scratches, small dents, stone chips, splash-water, salt, hydrocarbons, UV- radiations and influence of weather

### THE ADVANTAGES:

- Improved resistance
- Non-corrodible
- Easier and therefore less expensive repair compared to aluminium
- No changes in shape or colours thanks to high resistance to UV-radiation and influence of weather

### HEATING COMFORT:

- The Trend-models offer you the possibility to choose for a modern, efficient and practical gasheating. The Truma VARIOHEATER gasheating is very suitable for Pop-up – caravans thanks to its under-seat installation allowing to win useful storage space.

### OTHER ADVANTAGES:

- Integrated Blown-Air; hot air even into the toilet/ shower cabin
- No maintenance
- Efficient
- Elektronik control;
- Easy to operate
- Integrated security system

In Silver Premium models you benefit from the Whale/ Webasto "Space Heater MK II" ; this new generation of heating, that runs on both gas and electricity, is mounted under the floor and frees even more valuable storage space inside of your caravan !

### OTHER ADVANTAGES:

- 500W/ 1000W / 2000 W elektrical heating or 2000W on gas at your choice
- Integrated Blown Air: Enjoy comfortably warm air everywhere, even in the toilet/showercabine !
- No maintenance
- Efficient with electricity and gas
- Elektronik ignition and control
- Easy to operate

### SLEEP COMFORT:

Relaxation and a good night's sleep are essential to enjoy holiday. That is why Silver developed a new mattress using the latest technologies in the bedding market.

- High Resilient mattresses (30kg/m3) : high comfort, guaranteed firmness and longevity
- Anti-dust mite : anti-dust mite mattress cover
- Made in France : 100% manufactured and assembled in France
- Oeko-tex class 1 : mattress covers manufactured without harmful substances to health and skin

SILVER TREND 310

## REINFORCED INSULATION

Low-slung SILVER caravans offer perfect insulation with GRP-polyester panels and roof that guarantees optimal heating and a very high level of sound-proofing.

The Silver Trend 420CP has all of the range's «main» features: a bedroom for parents, an ample dinette, generous storage space and a toilet. With a fixed bed, a convertible dinette and a washbasin that can be raised, the Silver Trend 420CP combines space, practicality, comfort and ease of living.

SILVER PREMIUM 440

# SILVER PREMIUM 440

## SAFETY

The Silver models have many advantageous safety features: SILVER caravans all have stabilizing jacks and independent wheel suspension with dual-effect shock absorbers, as well as large-size tires and inertia braking with automatic reversing.

With the Silver Premium 440, move up the line and touch luxury with your fingertips. With a novel layout for a low-slung caravan (U-shaped living room, toilet and shower) and an innovative design, this exceptional model will bring you ever-increasing satisfaction.

SILVER PREMIUM 450 LJ

# SILVER PREMIUM 450LJ

## PERFECT BALANCE

The Silver Premium 450LJ has a new layout that includes the results of our ongoing dialog with customers.

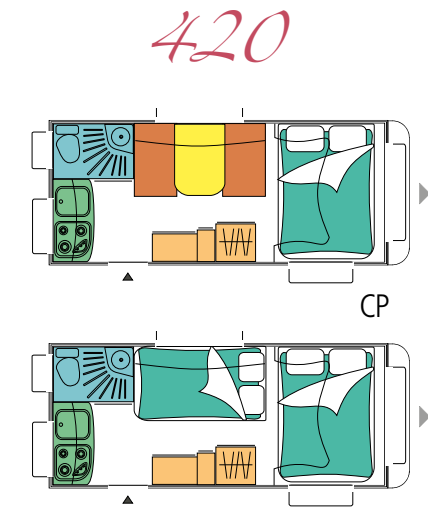

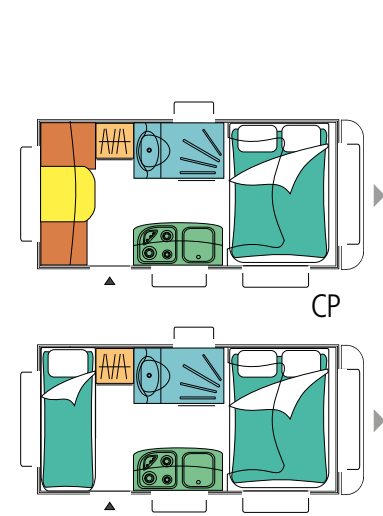

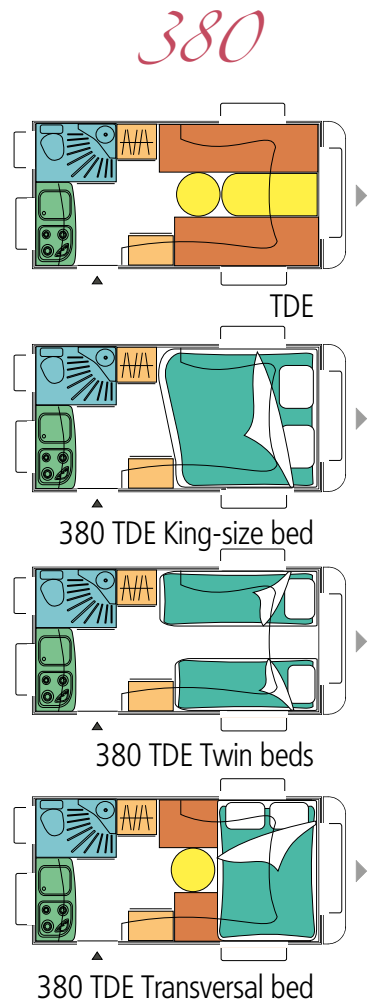

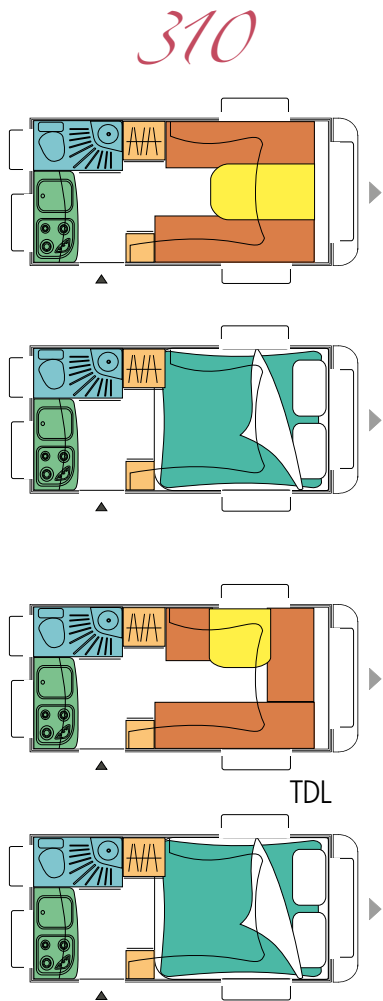

With all the advantages of the Silver Premium 440 (toilet, shower, U-shaped living room), the Silver Premium 450LJ also offers the possibility of fixed twin beds for optimal comfort and practicality. The Silver 450LJ has twin beds that expand into a king-size bed.

The Silver Premium 450LJ is a caravan that matches your personality, providing a perfect balance between travel and comfort.
