ADRIA

Our location ...

Slovenia is celebrating its 10th anniversary of independence. Thanks to business ownership reform, its economic results have been excellent.

Slovenia is a relatively small country – you can drive from one end to the other in a few hours and completely research it in a few days. Because of the diversity of its countryside, tourists come across as many geographical types of the countryside, as, in the whole of Europe. With the development of modern caravanning it is becoming a real paradise for tourists from all parts of the world. The modern motorways enable easier access to Slovenian lakes, mountains, waterfalls and hills. The picturesque countryside is guarded by the highest mountain, Triglav, which is 2864 metres high.

Slovenia lies in Central Europe, between the Alps and the Mediterranean, or between Vienna and Venice. The open borders enable free trade of goods and services with the European counterparts. The capital is Ljubljana, the second biggest city is Maribor and then Celje. Novo mesto comes next. Novo mesto is a hometown of the Adria Mobil company, a very successful Slovenian manufacturer of leisure vehicles. We are proud to present our products in this catalogue.

Our tradition, which goes back to 1965, of permanent improvements, adjustments of technology and know-how to the modern trends of caravanning have led to a big European market shares. This year, we would like to present some new products from our line. We export more than 95% of our products, our sales network includes more than 350 representatives all over Europe. All our products are well built, carefully designed and we are proud to present them to you. They reflect the knowledge acquired from 37 years of successful presence in the European markets. For our achievements we have been awarded the ISO 9001 certificate.

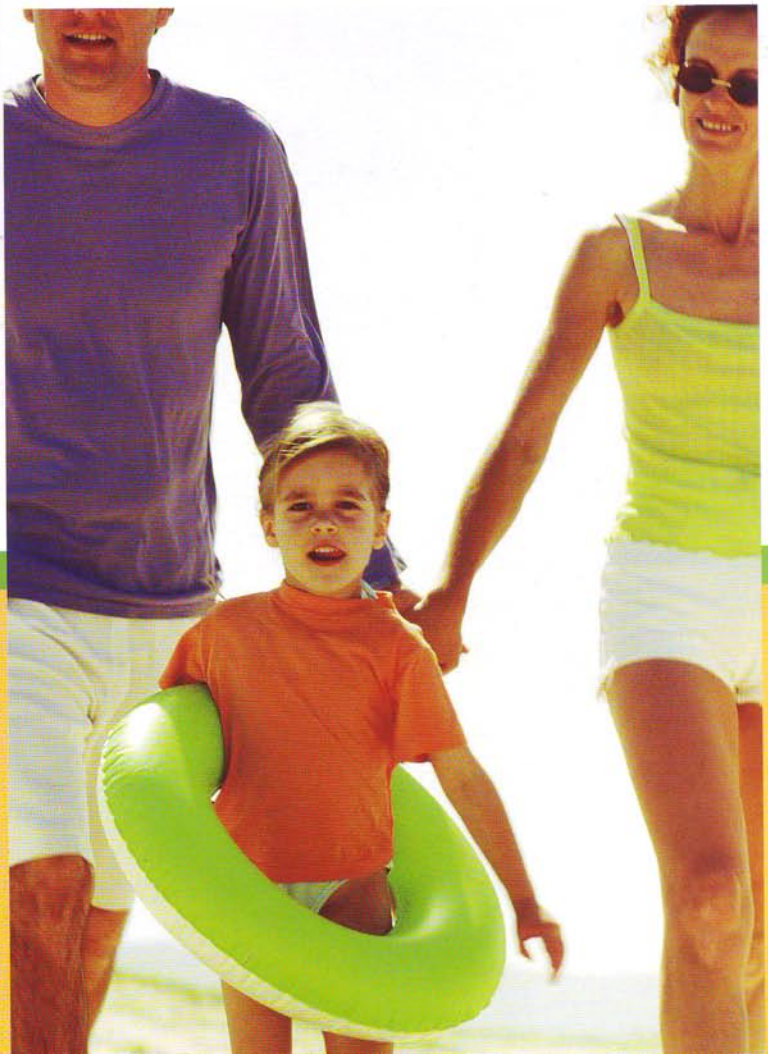

Hurray, we are going to the sea-side!

Relaxed and carefree holidays are everything we have always wanted. Plenty of options to fulfil our long-lasting desires. Now one option is here. And a chance. Everything matches when the right time comes.

Series A

A

Hurray, we are going to the sea-side!

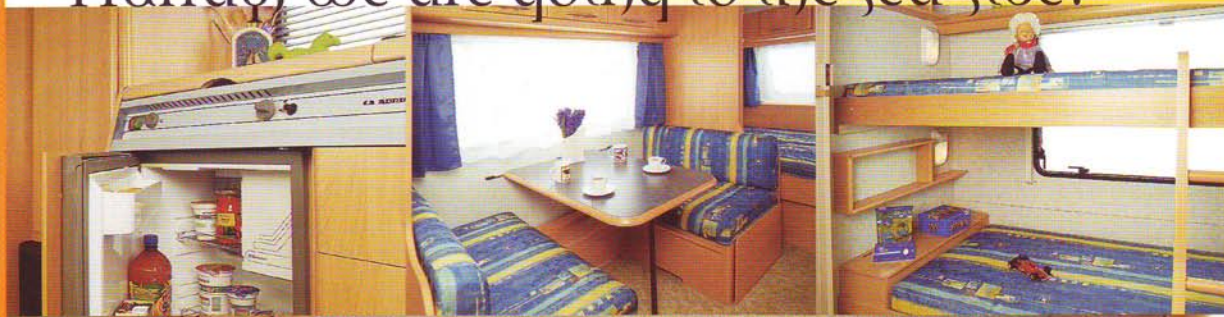

Series A

It has everything. A kitchen with a refrigerator, a living room, a washroom and even a bunkbed. It seems that it has more that we need for relaxed and carefree holidays. And we need freedom. Specially freedom. Adria's caravans make all our desires come true.

Hurray, We are going to the sea-side!

double bed

When you feel sleepy, you are selfish. You want the best. And you need plenty of space. And you need a handy light and a radio next to you, and possibly a window which can be opened without getting up. And of course a shelf for newspapers or a bottle of water.

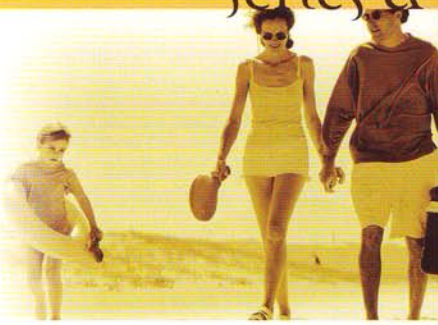

bunkbed

A bunkbed is a real luxury. It is the favourite place to sleep and safe because of a special net. A bunkbed is also a perfect location for observing what is going on around the caravan.

side dinette

The centre of your stay in the caravan is a table and the seats around it. To rest after a delicious lunch. Or turn them into a comfortable bed.

Series d

kitchen

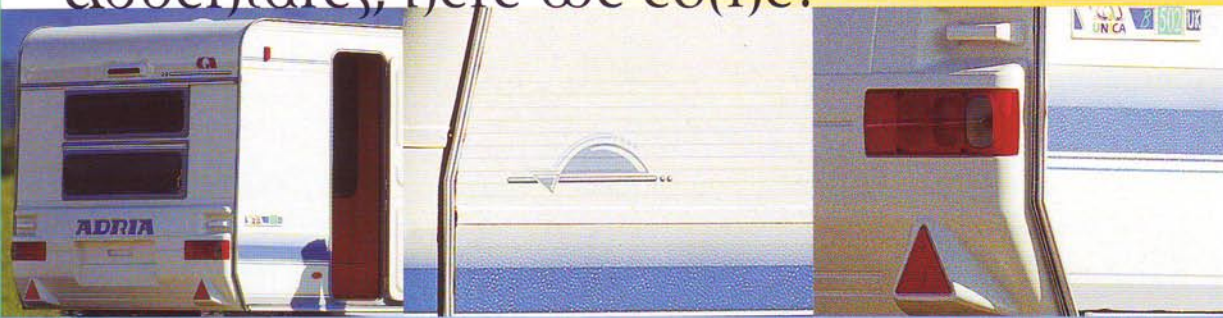

When you enter an Adria caravan, there is always something that surprises you. Especially the design of the furniture. In the kitchen compartment there are a safe two-burner stainless steel cooker and a refrigerator 60 l RM 4200, built-in especially for the needs of British customers.

washroom, a cassette toilet, a shower base

Although it seems small it offers all the enjoyment of personal hygiene. At the same time a cassette toilet offers the highest degree of hygiene during your stay.

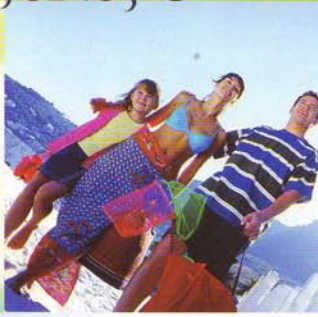

Adventures, here we come!

A new exterior design of the whole series brings freshness and makes us think about holidays. If you decide on this series, your desire for freedom will come true. It is easy to afford. But it may be difficult to choose a model.

Series B

6

Adventures, here we come!

Series B

It has everything. A kitchen with a refrigerator, a living room, a washroom and a comfortable bed. Even a quick glance inside tells us that there is more than we need for relaxed and peaceful holidays.

Adventures, here we come!

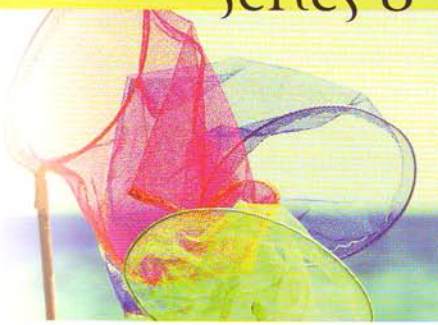

seating group

Practicality and comfort: a comfortable seating group or a comfortable bed. Spacious all the time. And lighting: moveable spotlights.

bunkbed

It offers a bird's-eye view of the caravan. And optimum use of space. The favourite bed for someone at night. To make it even safer, a special net has been added. In the same pattern as the upholstery of the seating group under it and it hides the bed during the day.

Series B

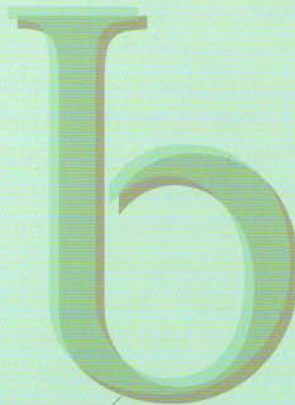

kitchen

What are we having for dinner tonight? The kitchen is ready: a three-burner enamel cooker, grill oven and a practical work surface and cupboards. The sink is just right to help us wash up and clean up easily and quickly.

washroom

The washroom has been specially designed to use on holidays. It is easy to keep it clean and at the same time a pleasure to use it. Plenty of freshness in the shower tray. And water, cold and hot, plenty of it. A cassette toilet – very practical.
